## **DETAILED ACTION**

## Election/Restrictions

1. Newly submitted Claims 6-13 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Originally filed Claims 1-5 rely upon identity data indicating the source of a transaction message for determining the order to return retrieved data. New Claims 6-13 rely upon sequence data indicating the timing of the request relative to other data requests for determining the order to return retrieved data. The use of different types of data (identity and sequence) in determining the order to return data packets renders Claims 6-13 patentably distinct from Claims 1-5.

Should Applicant traverse on the ground that the species are not patentably distinct, Applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the Examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Since Applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, Claims 6-13 are withdrawn from consideration

as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. The amendment filed on 12 May 2005 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because, as shown above, they are directed to an invention that is independent or distinct from the invention originally claimed.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, Applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
